

YASEEN DAWOOD

Software Developer — Full-Stack & Applications

Johannesburg, South Africa | 076 033 6903 | yaseen.dawood.com@gmail.com
github.com/YDawood03 | linkedin.com/in/yaseendawood

PROFILE

Final-year BSc IT student at NWU with hands-on experience across web and desktop development. Delivered three deployed, production-facing projects: a live corporate website for a law firm, a C# desktop invoicing system for a retail client, and an AI-powered Forex tutoring chatbot hosted on Microsoft Azure.

Currently a Teaching Assistant for C++, Python, and Java. Seeking a graduate software development role to build reliable, real-world solutions.

SKILLS

Languages: C++, Python, Java, C# - all Distinction | SQL | HTML

Frameworks & Tools: ASP.NET, .NET MAUI, WinForms, WPF, Git, GitHub, VS Code

Databases & Infrastructure: MySQL Workbench, SQLite, FTP, DNS, IIS, Azure App Service

Data Analysis: Pandas, Matplotlib

TECHNICAL PROJECTS

ForexTutorBot - AI-Powered Forex Study Assistant - *Python, Flask, scikit-learn, HTML*

[Live Demo](#) | [GitHub Repository](#)

- Built an intelligent Q&A system using Flask, scikit-learn, and NLP, achieving 85%+ matching accuracy across a curated knowledge base of 48+ forex trading concepts.
- Deployed to Azure App Service with GitHub Actions CI/CD on the free tier, enabling automatic redeployment on every push.

TayTech - Invoicing & Client Management System — *C#, WinForms, SQLite*

[GitHub Repository](#)

- Built a standalone desktop application for a local technology retail shop to manage client records and business transactions.
- Implemented full CRUD functionality, multi-field search, and transaction reporting metrics backed by SQLite.
- Programmed automated invoice generation with exact tax parameters and clean PDF exports, replacing manual paperwork for the client.

Sohail Manga Attorneys - Corporate Website — *HTML, FTP, DNS*

[GitHub Repository](#) | [Live Site](#)

- Designed, built, and deployed a live corporate website for a functioning law firm, coordinating directly with a third-party IT provider on FTP transfer, DNS mapping, and server configuration.
- Diagnosed and resolved critical 403/404 runtime errors during migration from ASP.NET to a Linux-compatible hosting environment, restoring the site to full production status.

Blue River Zoo Management System - *C#, SQL, HTML, ASP.NET*

[GitHub Repository](#)

- Collaborated in a 5-person engineering team to build a C# web application managing animal records, staff scheduling, and daily zoo operations.
- Built the staff scheduling module end-to-end, and took ownership of integrating all five team members' modules into a single working application.
- Led final testing and delivery of the combined system, resolving integration conflicts between modules ahead of submission.

WORK EXPERIENCE

Teaching Assistant | North-West University

02/2025 – Present

- Support 100+ students per session with Python, C++, and Java during practical labs, resolving debugging issues and clarifying core programming logic.
- Ran additional online lecture sessions and one-on-one support outside scheduled labs, contributing to a measurable improvement in the class average.
- Assist lecturers with marking, grading, and administrative coordination for practical coursework.

Legal Administrator | Sohail Manga Attorneys

01/2023 – 02/2024

- Redesigned the firm's document filing system, making case files faster to organize and retrieve, and helping the practice take on more clients.
- Managed daily office operations, keeping document turnaround and scheduling on track for a busy legal practice.
- Drafted legal documents and professional correspondence for client-facing matters.
- Prepared invoices and tracked payments in Microsoft Excel, maintaining accurate financial records.

Cashier | Postnet Lenasia

03/2020 – 01/2023

- Handled parcel sending, receiving, and collection alongside daily customer transactions in a high-footfall retail environment.
- Provided front-desk customer service that contributed to an increase in store sales during the role.

EDUCATION

Bachelor of Science in Information Technology | North-West University

02/2024 – 2026

Current GPA: 72.5%

Invited to be a member, Golden Key International Honour Society

INTERESTS & HOBBIES

- Gamer & Esports Player — competitive member of the North-West University esports team.
- Football Enthusiast — active player and follower of the sport.
- Emerging Technology — following developments in machine learning and applying new tools to personal projects.
